

TRASH TO TREASURES

Upcycled Journals 2

This one day workshop concentrates on an exposed stitch binding called “coptic” or “chain” stitch to make a multiple signature book with recycled cardboard covers, but will also included some quick Japanese style bindings with pencils, sticks and rubber bands. Save up your favorite tea, cracker or cereal box, your recycled books or game boards, or any other kind of packaging that is colorful and we’ll make a recycled book from it!

Eliza Holliday, Author of “Brush Lettering” and renown Florida book artist, is available to teach workshops in bookmaking. Eliza has taught for the Florida Library Network Organizations for over a decade and for many schools in the Southeast.
